

GIF me! Project

I can create a GIF using GoogleDrawing, webcam and SumoPaint.

1. Choose a facial expression.
2. Go to your google drive (<http://drive.google.com>)

3. Click on  and go down to  and select google drawings.

4. In google drawings, click on  then click on . You want to check "ALLOW" for webcam to work. 

5. Take **ONE** picture at a time  and click .
6. To **SAVE**, click on , click on  and click .
7. Click on you old picture and click delete.
8. Repeat steps 1 – 7 for your other two pictures.
9. Go to SumoPaint (<http://sumopaint.com>)

10.   and find your picture.

11. Draw on your picture!

12. To **SAVE**   save as **JPEG** 

13. Repeat steps 10 – 12 for your other 2 pictures.

ALL DONE!
